

Every school bus tracked, serviced and on time

Fleetbook is fleet software for school bus operators running 20 to 300 buses. It combines live GPS, parent alerts and maintenance schedules in one app your drivers already understand.

Live GPS

Parent alerts

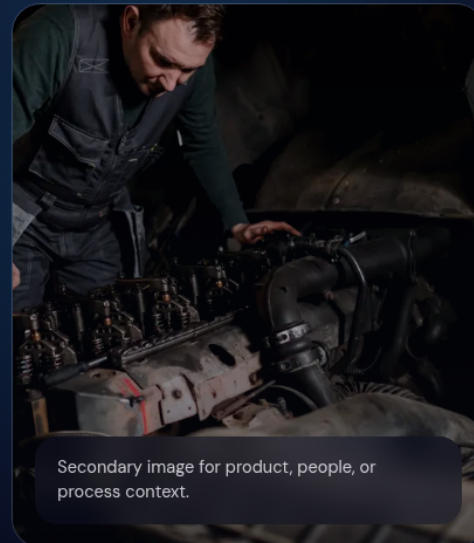

Service reminders

● Built for image-led stories, dense insights, and motion-first reveals.

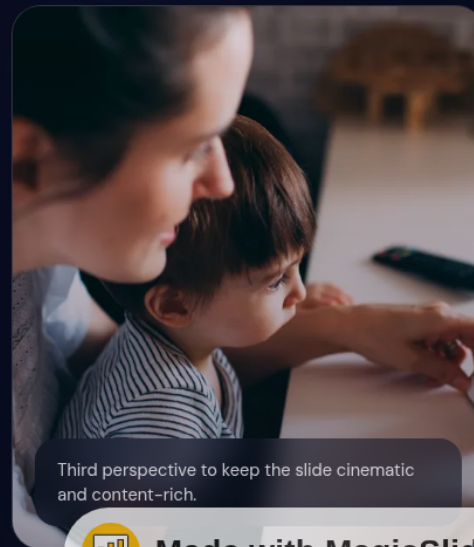

SPOTLIGHT

Visual anchor for the deck. Use this frame to establish tone, environment, and momentum.

Secondary image for product, people, or process context.

Third perspective to keep the slide cinematic and content-rich.

What changes in the first 6 months

Before vs after Fleetbook

17 OPERATORS

Average across 17 operators using Fleetbook since early 2026.

Core Analysis

Fewer calls

Parents see the bus on a map and get a 10-minute arrival alert.

Fewer breakdowns

Service is due by odometer, not by memory.

Happier schools

Schools get a monthly on-time report for their records.

ONBOARDING

Running on your fleet in 2 weeks

We install trackers, train drivers and load your routes for you.

DAY 1-3

Route import

Your Excel route sheets become stops on a map.

DAY 4-8

Tracker install

GPS units fitted at your depot, 20 buses a day.

DAY 9-11

Driver training

A 30-minute session in Hindi or the local language.

DAY 12-14

Parent rollout

Schools share the app link with parents.

Your team spends **about 6 hours total** on setup.
